

July 20, 1990

## **REPORT ON VOTING PRACTICES AT THE UNITED NATIONS 44th GENERAL ASSEMBLY**

### **INTRODUCTION**

**B**ecause of its increasing dismay that nations routinely vote against the United States at the United Nations and other international bodies, Congress in 1983 mandated that these votes be tabulated and published. As such, three laws, P.L. 98-164, P.L. 99-500 and P.L. 101-167 require the State Department to submit an annual report to Congress on the voting practices of the member countries of the U.N. in international organizations. This report, commonly called the Kasten Report after the sponsor of the original enabling legislation, Senator Robert Kasten, the Wisconsin Republican, has become an important tool for U.S. policy makers. Until this year, the Kasten Report had maintained the same format and methodology from year to year to provide the continuity necessary for analyzing and comparing voting performance over time.

With the passage on November 20, 1989, of Section 527 of the Appropriations Act for Foreign Operations, Export Financing and Related Programs, 1990, contained in P.L. 101-167, Congress changed the format of the report. The 1989 report, released by the State Department on March 31, 1990, has several differences from the versions of past years, but does not make the most potentially damaging change of incorporating consensus decisions in the calculation of how often a nation votes with the U.S. — called voting coincidence. Some legislators who oppose the Kasten Report had hoped to in-

clude these decisions to make the U.N. General Assembly appear more agreeable to U.S. interests than it actually is.

Consensus decisions should not be included in the tabulation of how other nations vote at the United Nations in relation to the U.S. The reason: consensus resolutions of the U.N. General Assembly or of any other legislative body often are non-controversial and frequently do not even touch on policy issues. Many are "housekeeping" resolutions involving such routine matters as membership on continuing committees and commissions. Examples from the 44th General Assembly, which met from September to December, 1989, include Resolution 44/402<sup>1</sup>, "Adoption of the agenda and allocation of agenda items," and 44/307, "Confirmation of the appointment of the Administrator of the United Nations Development Program."

Other consensus resolutions, known as "motherhood" resolutions, designate "years of celebration" and various tributes and honors. Typical are Resolution 44/11, noting the Achievements of the International Year of Peace, and Resolution 44/19, on the Twenty-Fifth anniversary of the establishment of the United Nations Conference on Trade and Development.

**Masking Disagreement.** At every U.N. General Assembly there are a few consensus resolutions of genuine substance — like, the resolutions of the 44th General Assembly on the biennial budget plan — but the unanimity recorded in the final vote masks the hard bargaining and tradeoffs that make it possible to achieve consensus at the end. Even then, consensus may have been reached only when some nation or nations retreated from a principled position. The meaningful divisions over issues of substance are hidden in committee proceedings or in informal negotiations, if in fact they are recorded at all.

Common to all of these categories of consensus is the fact that the final vote, or non-vote, is substantively meaningless. Including such resolutions in a voting scorecard, therefore, would skew the record, making U.N. proceedings seem much more harmonious and collegial than they are. As in any legislative body, the most accurate record is that focusing on definable differences in interests, principle, and policy. The methodology used in the Kasten Report reflects that approach.

Because of the changes made to the Kasten Report this year, The Heritage Foundation's United Nations Assessment Project has tabulated and sorted the votes at the 44th U.N. General Assembly using the methodology of the Kasten Reports of the past six years. This report provides the necessary continuity and comparability by presenting the percent coincidence of countries' votes with the U.S. at the General Assembly. In addition, it contains the percent coincidence of countries' votes with the U.S.S.R. and categorical breakdowns according to the major issues dealt with by the 44th General Assembly.

---

<sup>1</sup> The first number in a resolution refers to the General Assembly session which passed it; the second number, following the slash, indicates the numerical order in which it was passed. For instance, resolution 44/135 was the 135th resolution passed by the 44th General Assembly.

ly, data not included in the Kasten Report but important to the analysis of countries' performance in the General Assembly.

## NOTE ON METHODOLOGY AND SOURCE DATA

The tables showing percent coincidence of countries' votes with the U.S. and with the Soviet Union take into account recorded votes during the 44th General Assembly, which held its plenary session from September 19, 1989 to December 29, 1989. They are calculated on the basis of yes/no votes only. They do not take into account absences or abstentions; they do not include decisions made by consensus.

The sum of the number of recorded votes on which a nation voted "yes" when the U.S. voted "yes" or "no" when the U.S. voted "no" yields a number of "votes with the U.S." The sum of the number of recorded votes on which a nation voted yes or no *and* the U.S. voted yes or no yields that nation's "total yes/no votes." Each nation's percent coincidence with the U.S. on all recorded General Assembly votes is derived by dividing that nation's "votes with the U.S." by its "total yes/no votes." Dividing the sum of all nations' "votes with the U.S." by the sum of all nations' "total yes/no votes" yields the "average overall coincidence" with the U.S.

The calculations are based on data from "Resolutions and Decisions Adopted by the General Assembly During the First Part of its Forty-Fourth Session" (United Nations Department of Public Information Press Release GA/7977, January 22, 1990), except for the 21 paragraph votes and three procedural votes, which are based on data obtained from the U.S. Department of State.

## PATTERNS OF VOTING AT THE U.N.

The average overall coincidence with the United States in the 44th General Assembly was 17.15 percent. Average overall coincidence of voting with the Soviet Union, meanwhile, was a remarkable 95.07 percent.

Though the 140 resolutions on which votes were taken in the 44th General Assembly covered a very broad range of issues, the majority fell into one of four topical categories:

1) **Economic Development/International Regulation Issues** (11 votes: average coincidence with the U.S. 2.20 percent; average coincidence with the U.S.S.R. 97.81 percent).

Examples:

Resolution 44/26: "The Law of the Sea"

U.N. congratulates itself for drafting the Law of the Sea Treaty, calls upon all nations that have not done so to sign it, and if not, to observe its provisions.

**Resolution 44/50: "Questions Relating to Information"**

Urges elimination of "imbalances" in news reporting on developing countries (meaning criticism that does not take into account "the interests, aspirations, and socio-cultural values of all peoples") and mandates that the U.N.'s Department of Public Information cooperate more closely with UNESCO (from which the U.S. withdrew in 1985).

**2) Southern African Issues** (24 votes: average coincidence with the U.S. 11.65 percent; average coincidence with the U.S.S.R. 91.50 percent).

Examples:

**Resolution 44/27 A: "International Solidarity with the Liberation Struggle in South Africa"**

Reaffirms U.N. official recognition of the African National Congress and the Pan Africanist Congress as "national liberation movements," with the right to use any necessary means, "including armed struggle," to end apartheid in South Africa; and orders South Africa to lift its state of emergency and end various "repressive measures."

**Resolution 44/27 F: "Relations between South Africa and Israel"**

Singles out and condemns Israel as the major collaborator with "the racist minority regime of South Africa" (despite the fact that in paragraph C of the resolution the Federal Republic of Germany, not Israel, was determined to be South Africa's leading trading partner. Among the sponsors of this resolution were Iraq, Kuwait, and Qatar, who, along with other Arab proponents of this resolution, are the leading suppliers of crude oil to South Africa).

**3) Middle Eastern Issues** (37 votes: average coincidence with the U.S. 17.96 percent; average coincidence with the U.S.S.R. 94.69 percent).

Examples:

**Resolution 44/40 A: "The Situation in the Middle East"**

Condemns Israel for "terrorist, aggressive, and repressive measures" within and outside "occupied Palestinian territory"; condemns the U.S. for economic and strategic assistance to Israel; demands the "immediate, unconditional and total withdrawal of Israel from all the territories occupied since 1967."

**Resolution 44/42: "Question of Palestine"**

**Demands that Israel withdraw from "the Palestinian territory occupied since 1967, including Jerusalem, and from the other occupied Arab territories" (emphasis added) and calls for a Middle East Peace Conference under U.N. auspices and for placing "Palestinian territory... under the supervision of the United Nations for a limited period, as part of the peace process."**

**4) Disarmament Issues (44 votes: average coincidence with the U.S. 26.36 percent; average coincidence with the U.S.S.R. 98.22 percent).**

**Examples:**

**Resolution 44/112: "Prevention of an Arms Race in Outer Space"**

**Insists that outer space should be used exclusively for peaceful purposes; calls upon the U.S. and the Soviets to undertake "bilateral negotiations in a constructive spirit aimed at reaching early agreement for preventing an arms race in outer space." (This echoes almost verbatim the Soviet line against the U.S. position on development of defenses against nuclear weapons.)**

**Resolution 44/107: "Urgent Need for a Comprehensive Nuclear-Test-Ban Treaty"**

**Calls for an "end to nuclear testing by all States in all environments for all time." (This, too, is the Soviet position and opposes the U.S. stance on an arms control issue.)**

**Other Issues, on which there were 22 votes, include such resolutions as:**

**Resolution 44/240: "Effects of the Military Intervention by the United States of America in Panama"**

**Condemns the action of the U.S. military in Panama allegedly constituting "A flagrant violation of international law and of the independence, sovereignty and territorial integrity of states." (No other nation, except Israel, was condemned by name for involvement in armed conflict. Even past resolutions on Afghanistan called only for the withdrawal of "foreign troops" and did not mention the Soviet Union by name.)**

**Resolution 44/43: "Judgement of the International Court of Justice of 27 June 1986 concerning military and paramilitary activities in and against Nicaragua: need for immediate compliance"**

In effect, this resolution affirms the International Court of Justice's (ICJ) opinion in *Nicaragua vs. United States* that General Assembly Resolutions constitute a form of international law, a position the United States has always (and for good reason) strongly opposed. It also denies the U.S. its right, as expressed in the U.N. Charter, to deny ICJ jurisdiction over a dispute.

Included in these votes were 21 taken on specific paragraphs of certain resolutions. There were also three procedural votes, including the perennial illegal attempt to exclude Israel from participation in the General Assembly by denying credentials to the Israeli U.N. delegation. The breakdown of voting coincidences with the U.S. and the Soviet Union on each of these topics is shown in Table IV.

Of these 140 votes taken on resolutions in the 44th General Assembly, the U.S. voted for 14, against 93, abstained on 31, and refused to participate on 2. The Soviet Union voted in favor of 133, against 1, abstained on 4, and refused to participate on 2. A list of these resolutions, their titles, and their respective categories appears in Appendix C.

**Voting Blocs.** In the General Assembly, typically, member states form blocs, much like the political parties in western democracies. These blocs are based on common geographical, cultural, religious, political, and ethnic characteristics. Among the U.N. blocs are: the African Group, Arab Group, ASEAN, Asian and Pacific Group, Eastern European Group, European Economic Community, Islamic Conference, Latin American Group, NATO, Non-Aligned Movement, Nordic Group, Warsaw Pact, Western European and Others Group. While there are other groups formally associated with the U.N., like the Organization of African Unity, League of Arab States, and the Organization of American States, the thirteen listed above comprise the best breakdown for analyzing bloc voting in the General Assembly. Membership in and overall voting coincidence by these thirteen major blocs is shown in Appendix A.

By far the most powerful bloc with 99 member states, the so-called Non-Aligned Movement had a 98.90 percent average coincidence with the Soviet Union and only a 11.60 percent average coincidence with the U.S. On economic development and international regulatory issues, the voting of the Non-Aligned Movement as a group is even more skewed, with a 100 percent coincidence with the Soviet Union and a zero percent coincidence with the U.S.

Even excluding votes on issues regarding the Middle East and Southern Africa (which together comprised over 43 percent of all resolutions voted on in the 44th General Assembly), the average voting coincidence with the U.S.

still is only 19.18 percent. The African Group, excluding votes pertaining to Southern Africa, has an average voting coincidence of 13.61 percent with the U.S. The Arab Group and the Islamic Conference have average voting coincidences with the U.S. of 10.26 percent and 12.08 percent, respectively, when votes dealing with the Middle East are excluded.

Every year since 1982, a group of countries has tried to prevent Israel from participating in the General Assembly. This attempt comes in the form of a vote on whether to accept the credentials of the Israeli delegation. Thirty-seven countries voted to deny Israeli credentials in the 44th General Assembly.<sup>2</sup>

**Small Thanks for U.S. Aid.** The U.S. failed in the 44th General Assembly to get even those countries which receive substantial U.S. aid (except Israel) to support U.S. positions in the U.N. Egypt, the number two recipient of U.S. dollars, receiving \$2.3 billion in fiscal 1989<sup>3</sup> had an overall voting coincidence with the U.S. of only 11.58 percent. Pakistan received \$583 million from the U.S. in fiscal 1989 and had a 9.80 percent overall coincidence. India, to which the U.S. gave almost \$163 million in fiscal 1989, had an abysmal 5.43 percent overall coincidence, second only to Angola in opposing the U.S. at the U.N.

The average voting coincidence with the U.S. of the top 50 recipients of U.S. bilateral aid was 15.06 percent. Their coincidence with the Soviet Union was 96.86 percent. These countries and their individual voting coincidences are shown in Table III.

## CONCLUSION

Since U.S. votes in the General Assembly generally reflect U.S. policy goals and interests, the overall voting performance of the majority of the U.N. member states demonstrates that the U.N. agenda is largely inimical to U.S. interests. The U.S. is almost always isolated on the issues which matter most — those on which a vote is taken. Perhaps more important, the Soviet Union's positions are almost always endorsed by the majority at the U.N. With an overall voting coincidence of only 17.15 percent, the U.S. continues to fare quite poorly at the U.N.

**Holding Nations Accountable.** George Bush should instruct Thomas Pickering, U.S. Ambassador to the U.N. in New York, to advise U.N. member states that their performance in the General Assembly will have a bearing on their bilateral relationship with the U.S. This should be backed up by providing the records of voting performance at the U.N. to each U.S. embassy abroad and requiring those missions to inform the local government of the

---

2 The number of countries voting to deny Israeli credentials had been as high as 43 in 1983 and as low as 39 in 1987.

3 "FY 1989 U.S. economic and Military Assistance - Actual Obligations," in Agency for International Development, *Congressional Presentation, Fiscal Year 1991, Main Volume*, pp. 239-243.

record. The U.S. Ambassador then should advise the local government that continued poor performance will elicit appropriate responses from Washington. While this by no means should be the only factor for determining aid and loans from the U.S., it should play some role in that. Where possible, financial assistance should be used as leverage to encourage support for U.S. positions on important issues at the U.N.

114-0-7

Question of Antarctica.

44/124B

101-0-8

Question of Antarctica.

**140 total resolution votes for the 44th General Assembly**

**Note: Does not include votes on decisions.**

## **Appendix D**

### **Key Issues: List and Definitions**

The U.S. Department of State each year identifies key issues on the U.N. agenda. Key issues are those which the U.S. government takes up with U.N. member countries not only at the U.N., but also in their capitals. For the purposes of this report, The Heritage Foundation's United Nations Assessment Project has chosen the ten most important of these key issues. Appendix E shows each country's votes on these ten key issues and shows the total agreement, disagreement and voting coincidence with the U.S. on the key issues. The following is a list of the ten key issues for the 44th General Assembly as determined by the United Nations Assessment Project.

- 1) The procedural vote on Israeli credentials is the annual attempt to exclude Israel from participation in the General Assembly.
- 2) Resolution 44/22 "The Situation in Kampuchea," calls for the withdrawal of "all foreign forces" from Cambodia, also known as Kampuchea.
- 3) Resolution 44/40A "The Situation in the Middle East: Palestine and International Peace Conference," determines that the U.S.-Israeli strategic cooperation agreement has encouraged Israeli aggressive policies, and reaffirms the call for an international peace conference.
- 4) Resolution 44/43 "International Court of Justice Judgement re Nicaragua" is the Nicaraguan-sponsored resolution that calls on the U.S. to comply with the International Court of Justice (ICJ) decision which purports to make U.N. General Assembly resolutions customary international law, and thus legally binding.
- 5) Resolution 44/50 "The Questions Relating to Information" calls for the establishment of a "new world information and communication order." The United States opposes resolutions containing elements which might be cited to justify restrictions on the free flow of information and freedom of the press.
- 6) Resolution 44/105 "The Cessation of All Nuclear Test Explosions" urges depository powers of the Limited Test Ban Treaty (LTBT) to halt all nuclear test explosions. This perennial Mexican initiative is in direct conflict with U.S. policy on nuclear testing and deterrence.
- 7) Resolution 44/117D "Nuclear Arms Freeze" undermines fundamental U.S. defense policy such as deterrence and flexible response by calling for the U.S. and U.S.S.R. to agree to an immediate nuclear arms freeze.
- 8) Resolution 44/120 "Indian Ocean Zone of Peace" reiterates decision to convene a conference on the Indian Ocean. The United States opposes a conference addressing the military presence of non-regional powers in the region.
- 9) Resolution 44/167 "The Enlargement of the Commission on Human Rights" was a resolution the United States was prepared to support only if expansion was directly linked with making the commission more effective. The final text eliminated this policy connection which led the U.S. to vote against it.
- 10) Resolution 44/240 "Military Intervention in Panama" strongly deplores U.S. intervention in Panama, and demands the immediate withdrawal of all U.S. armed forces.
