

April 4, 2023

Dear Congressional Leaders,

The undersigned coalition writes to encourage unified support for a successful House Judiciary Committee mark-up of a strong border security package during the week of April 17. The series of policies to be considered are necessary to combat the chaos unleashed by the Biden Administration on our borders. The package that had been previously announced and rescheduled should not be weakened or otherwise watered down and must include all of the bills as they are interrelated.

Particularly, these policies are a common-sense response to the weaponization and defrauding of the asylum system as a tool to facilitate mass illegal immigration to the United States. They also make key reforms to the gross abuse of the parole system, which the Biden Administration is increasingly relying upon to import illegal aliens to the United States at an industrial scale. Furthermore, these policies would discourage parents from separating their own families to send unaccompanied alien children across the border, thereby protecting children from cartel, smuggler, gang, trafficking, and child labor abuse.

This reform package is in keeping with the Commitment to America that the entirety of the Majority party in the U.S. House of Representatives made. We were proud to work with you on [strengthening](#) that Commitment, holding the line against a [lame-duck amnesty push](#) by open-borders actors, and [pushing](#) for a flagship package.

When the policies advanced by the House Judiciary Committee are combined with a forthcoming House Homeland Security Committee package into a single flagship bill, the House will have shown the American people a forceful response to the Biden Administration's border crisis. These policies will save American lives, mitigate the human suffering of mass illegal immigration, and restore American sovereignty, security, and well-being.

Sincerely,

Advocates for Victims of Illegal Alien Crime
