a—Enacted base appropriations in FY 2012 totaled \$1.043 trillion. The figures show the effect of continuing FY 2012 appropriations policies into 2013. This base figure is lower than 2012 enacted spending because CBO projects certain spending offsets are projected to be higher in 2013 than 2012.

b—The full House has passed separate appropriations bills for Commerce-Justice-Science, Military Construction-Veterans Affairs, Energy and Water, Homeland Security, Legislative Branch, Transportation-HUD, and Defense. The full Appropriations Committee also has passed appropriations bills for State-Foreign Operations, Agriculture, Financial Services, and Interior. The full committee has not taken up the Labor-HHS bill. c—The Senate Appropriations Committee has approved all its appropriations bills except Interior. The full Senate has acted on none.

d—The continuing resolution (H.J. Res. 117) runs for six months, from October 1, 2012, through March 27, 2013. Figures shown are annualized from the rates of spending provided in the legislation. e—Excess spending for past weather events.
