

ACKNOWLEDGMENTS

The Heritage Foundation's annual *Index of Economic Freedom* is the product of collaboration with people and organizations around the world. We wish to express our gratitude both to the myriad individuals serving with various international organizations, research institutions, government agencies, embassies, and other organizations and to the various Heritage Foundation foreign policy experts who provided valuable guidance and assistance throughout the year.

Production of the *Index* would not have been possible without many other colleagues at Heritage. In Policy Publications, Director Therese Pennefather played an essential role by once again keeping production on schedule, Senior Editor William T. Poole continued to bear the primary responsibility for perfecting the language we employ, Manager of Data Graphics Services John Fleming and Data Graphics Designer Luke Karnick created the outstanding charts and graphs that appear throughout the book, and Manager of Web Development and Print Production Jay Simon was responsible for the design and layout of the *Index*. Senior Graphic Designer Caroline Cruz designed the cover.

The transformation of the *Index* into electronic formats is made possible by the efforts of Jay Simon, John Fleming, Web Designer Christina Haurie, Director of Marketing Sarah Dirndorfer,

and Customer Data Solutions Architect William Zimmerman.

As always, Heritage Foundation President Kevin Roberts, Executive Vice President Derrick Morgan, Chief Operating Officer Eric Korsvall, Chief Advancement Officer Andrew Olivastro, Vice President of the Kathryn and Shelby Cullom Davis Institute for National Security and Foreign Policy Victoria Coates, and Director of the Margaret Thatcher Center for Freedom Nile Gardiner have been enthusiastic supporters and great sources of encouragement in producing this flagship product of The Heritage Foundation. We are also grateful for the continuing engagement of Senior Counselor to the President and E.W. Richardson Fellow James Carafano and other Heritage colleagues in helping us to spread the message of economic freedom around the world.

Finally, we must express our profound appreciation to the many people who, year after year, have paid close attention to the *Index* and used its data for various research and other purposes. The support and encouragement provided by users of the *Index* worldwide remain a major source of inspiration for our ongoing work.
